

# Pierce County Elementary School Feeder Regions and Impervious Surface Coverage

This map shows 'feeder zones' to each Elementary school within Pierce County. Each zone has been symbolized with a green to red scale to express the impervious surface coverage associated with each school. This map suggests that highly concentrated urban schools within pierce county contain significantly higher levels of impervious surfaces.

## Impervious Surface Coverage

- Elementary Schools
- 0 - 20%
- 21 - 40%
- 41 - 60%
- 61 - 80%
- 81 - 100%
